Dear Elizabeth,

As it is appears that Homestead through your office is committing illegal billing practices. Not to mention mail/wire fraud.

To alleviate my concerns, I am filing a request for records under FS. 119.

I am requesting electronic copies of all electronic records.

Please provide any public records from the last year which document and track the actual time spent by employees responding to public records requests.

This does not include the invoices you send out as they are not the actual records showing the time keeping for these bills.

It is hoped that if you cannot immediately provide them, you will finally admit to your illegal billing practices.

Sincerely,

Dr. James Eric McDonough
